

GO GREEN

with YTF & 2trg e-Cycling Day!

Youth For Technology Foundation (YTF), an international non-profit organization with a mission to provide disadvantaged youth with appropriate technology for learning, and 2trg, a local recycler of electronics, are hosting a **GO GREEN e-Cycling Day** on **Thursday, March 11, 2010** at the Green Building in downtown Louisville.

Electronic waste is quickly becoming a big problem for businesses and consumers. The rapid growth in technology results in devices becoming obsolete faster and need to be disposed of, posing a threat to the environment and to the security of the previous owner's data. Therefore this event will provide our community the opportunity to dispose of their used or obsolete computers, cell phones, printers, mice, keyboards and other electronic devices in an environmentally safe and convenient manner while benefitting a great cause! A percentage of the proceeds from the refurbished, donated materials collected from the event will go to YTF to help underprivileged youth in our area. Donations will be accepted from 8:00 a.m.-6:00 p.m. **Volunteers are needed the day of the event to assist consumers with donations.**

For more information on how to become a corporate sponsor of YTF or to sign-up for volunteer opportunities contact YTF at chandra@youthfortechology.org or 502-648-1619.
